

# `natsci-latex` — Sample document — Czech

Adam Přáda

2020-10-26

This document shows a typical header for an Czech document using the `natsci` package.

Tento dokument ukazuje, jak by mohla vypadat typická hlavička česky psaného dokumentu.

## **1 My section**

Section text.

### **1.1 My subsection**

Subsection text.

As citation commands, one can use either superscripts, which is mainly when the reference is not explicitly a part of the sentence.<sup>1</sup> Alternatively, you can mention them in sentence, like ref [2].
